## WINGS CHASING CLOUDS

Bivalve mollusks have incredible inner beauty. They remind us of the sea, and all the features of the sea — but they also depict the air at the same time, like the wings of angels, and thus remind us of the elements of the air.

It's a duality that brings us a sensation of comfort and beauty.

### COMPOSITION:

Silk Wool Damask Jacquard,  
55% silk, 45% wool

### SIZES

Width: 59" / 150 cm
